

# Knudsen Kilen

## Data Sheet K-Block 45C 2 mm brown

The K-Block 45C series has the same properties and functions as K-Block 45, but is simply in color-coded thicknesses. With its 45 mm, K-Block 45C is designed to accurately fit the width of rafters and other planed 2" wood, but is also used for distance adjustment and leveling of medium-heavy tasks such as doors and windows. The countersunk screw holes provide secure mounting.

All sizes (2, 3, 5, 10 and 20 mm) of both K-Block 45/45C can merge together to form a singular block with the desired height. K-Block 45 cannot be used together with K-Block 6T.

## Technical information

Properties	Specifications	Remarks
Item number	985004070	
Material	HDPE (High Density Polyethylene)	
Width / Length	45 / 80 mm	
Thickness	2 mm	
Color	Brown	
Weight	4 grams	
Temperature High (Softing Point)	120 °C	
Temperature Low (Low Temperature Brittleness)	-76 °C	
Pressure load	2,000 kg	
Moisture	Is not affected by moisture, rot og fungus	
Fire	Does not emit toxic fumes in case of fire	
Fire classification	Fuel class B2 / DIN 4102-1	
Capillary breaking	Yes
