K-Block 6T

K-Block 6T spacer block

- fast and precise elevation of heavy subjects

- Fast and easy handling
- Carrying capacity of 6 tonnes
- Not affected by damp, rot, or dry rot
- Economical and timesaving
- Grip pins ensure stable stacking
- The gripping pins are easily removed with a hammer or a hobby knife

K-Block 6T are used for fast and precise leveling of very heavy building parts.

K-Block 6T can be assembled to exactly the desired thickness and small studs and holes ensure that they do not slide sideways. K-Blocks 6T have a modest weight and are easy to place.

With a carrying capacity of 6,000 kg, the spacer blocks are suitable for leveling of very heavy subjects such as window sections, steel joists, and concrete panels.
